PROFILE SUMMARY

Full-stack developer specializing in the MERN stack, skilled in building scalable, secure, and user-focused applications. Strong foundation in data structures and algorithms with hands-on experience in authentication, payment integration, and Repository Pattern architecture principles.

EDUCATION

MERN Stack Developer, BroTOTYPE 2024 - 2026

Higher Secondary Education 2024
Computer-Commerce

SKILLS

Languages	JavaScript, TypeScript, HTML, CSS
Frontend	React.js, Redux Toolkit, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, REST APIs
Databases	MongoDB, MySQL
Integrations	Stripe, Razorpay, Google OAuth 2.0, Multer, Nodemailer
Tools	Git, GitHub, AWS (EC2, NGINX), Postman, Figma
Concepts	Repository Pattern, SOLID Principles, DSA

PROJECTS

FluffyCare - Pet Care Service [GitHub](#)

Built a full-stack **role-based system** with three roles: **Pet Owner**, **Shop**, and **Admin**.

Shops manage services (grooming, training, vaccination), while Pet Owners can **browse**, **filter by location**, **book slots**, and **pay** via **Stripe** and **wallet system**.

Implemented **JWT authentication**, global state management with **Redux Toolkit**, and a **real-time chat** between Pet Owners and Shops.

Developed the **Admin module** for verifying shops, monitoring reviews, and managing users and services.

Applied **Repository Pattern** and **SOLID principles** for scalability, and built reusable frontend components with **React.js + Tailwind CSS**.

Tech Stack: React.js, TypeScript, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Stripe, WebSockets.

KickStop - E-commerce Shoe Website [GitHub](#)

Built a full-stack e-commerce platform with role-based access for users and admins, supporting secure authentication and multiple payment methods.

Designed scalable backend with **Node.js + Express.js**, following **MVC architecture**.

Developed responsive frontend with **EJS templates**, **HTML**, and **CSS**.

Integrated **Razorpay** for fast and secure checkout, and created an **Admin Panel** for managing users, products, orders, and coupons.

Tech Stack: Node.js, Express.js, EJS, HTML, CSS, Razorpay.
